

# Staying Connected with Campus Services

Given all the uncertainty that's swirling around us these days, the catch phrase "Keep calm and carry on" seems like a good reminder. Keep following the [CDC guidelines](#) to keep yourself and others safe. Keep reaching out to neighbors and farther-reaching community members who need assistance. And keep up the amazing work and positive, can-do attitude that so many Campus Services employees share. Thank you, thank you! (*Check out the pumpkin carving winners on page 2.*)

## Exciting Happenings at the Skiway

It seems outdoor enthusiasts are eager to hit the slopes at the Dartmouth Skiway this year as early-bird season pass sales are up 15% over last year. Several College employees mentioned their interest in skiing or snowboarding as a way to get outdoors and do something fun.

New Skiway Director Mark Adamczyk is excited for the Skiway to open Dec. 19 (weather permitting) and is busy hiring seasonal staff and testing the snowmaking equipment. He recently rolled out a new Skiway logo which incorporates the snowflake design used by the Dartmouth's alpine and Nordic ski teams. The logo will be used on the Skiway's website, maps, promotional materials, and merchandise.

In additional Skiway news, [DartmouthSports.com](#) wrote, "the NCAA recently announced that it has awarded the men's and women's skiing championships for the 2024-25 season to Dartmouth College. This will be the first time Dartmouth has hosted the event since 2003 and just the third time ever. While the Big Green finished sixth at the championships the last time they hosted, they took home the title as the host school back in 1958."

*Exterior work outside Anonymous Hall is complete with a finished patio, landscaping, and installation of solar panels on the building's roof. Thanks to Senior PM Chad Morig.*

## Key Date Reminders

**Nov. 6:** Deadline to complete the on-line or paper-based order form for a Campus Services vest or sweat-shirt. Please submit your preference of size, color and vest or sweatshirt to your supervisor or to [Kaitlyn Christian](#).

**Nov. 19 and 20:** Pick-up your frozen 12-15 pound turkey between 1:30-5:30pm in the parking lot behind '53 Commons. More details to follow.

## Projects that are Wrapping Up

The buzz of active construction projects on campus is always underway given our division's responsibility to steward Dartmouth's buildings and grounds. This stewardship involves addressing capital renewal needs, renovation and restoration work, and new construction that supports the College's academics, research and student life.

Let's take a moment to recognize in photos some of the projects that are being completed this month.

*Drainage and waterproofing improvements around Baker Library will ensure water is directed away from the Orozco mural corridor. Thanks to Project Manager (PM) Joe Roberts.*

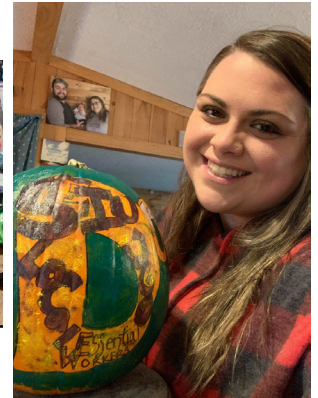

*A new sidewalk and retaining wall have been installed along the east side of N. College St. connecting the Burke Chemistry building to the North Park St. intersection. Thanks to Assoc. Director of FO&M Tim McNamara.*

The VOTES ARE IN!

Here are the winners for the pumpkin carving contest. Thanks to ALL who submitted photos of their very cool creations, and a special thanks to Kaitlyn Christian for coordinating this event.

**Best in Show** winner for pumpkin #7 is Chelsea Handler of Custodial Services

**Pumpkin #4**

Dana Durkey of Custodial Services

It's a tie for the **Spookiest** pumpkin.

**Pumpkin #6**

Janette Chandler of Fire Safety
