

Staying Connected with Campus Services

As we approach the final weeks of a very difficult year, let's recognize the tremendous effort everyone has made to provide a safe, welcoming haven for our students, faculty and staff. Thank you for your work and for staying safe.
Cheers to a new year! Happy holidays, everyone!

Thanks for the Holiday Gifts

What wonderful gifts we are all receiving this year! The comfy Lone Pine vests and sweatshirts and delicious

Red Kite Candies are real treats and go far to acknowledge every Campus Services employee. Thanks to Robin Guay, Kaitlyn Christian, Kelly Mousley, David Smallwood, Susie Weider, Julie Findley, and everyone at DPMS for ordering and packaging the bags. Thanks to Campus Services leadership team for sponsoring the gifts, and thanks to all of YOU for your continued commitment to Dartmouth and Campus Services. We make a great team!

If you have not yet received your gift bag, please check with your supervisor, work control, or the Admin HR office.

Dartmouth Dining is Here for You

This is the phrase Director of Dining Jon Plodzick is repeating to his team, reminding them of their #1 priority to provide excellent service to the 80 students who remain on campus between terms and are being served at '53 Commons.

Jon wrote, "once students return to campus, '53 Commons will offer a Late Night service from 9pm-12am daily for students to have a place to study, see one another (from 6' away) and get something to eat. They can use a meal swipe equivalency or their Dining Dollars for purchases from the Grill, Sauté Fresh or the Brick Oven Pizza, in addition to all of the packaged items and beverages we will offer. Thanks to Matt Trombly for running this important part of our program as we help make the Dartmouth Experience the best it can be for students during these difficult times."

Installation of new Radio System

Work is underway to replace the College's aging radio system which is used for emergency communication. Project lead Tom Mitchell from IT Services provided this photo which shows the first of five antennas that are being installed for the new radio system. Tom wrote, "we will have antennas and radio repeaters at DHMC, Dartmouth

SkiWay and three sites on the main campus to provide radio coverage for the Department of Safety and Security, Facilities Operations & Management, Skiway operations and ski patrol, as well as several other departments. The new radio system will support campus safety, emergency operations, and daily campus operations." Benefits of the new system, which will be fully implemented in the spring, include:

- state-of-the-art Motorola radio system design informed by comprehensive frequency and coverage studies,
- updated dispatch consoles, vehicle radios, and handheld equipment serviceable in person or remotely,
- enhanced quality of communication transmissions and overall functionality, and
- consistent, aligned new radio equipment across campus departments and at remote sites.

United Way Raffle Winners

Congratulations to DDS's Brandon Crosby, Project Manager Chad Morig, Instrument Technician Maurice Anderson, and Associate VP of FO&M Frank Roberts who each won a weekly raffle prize of a full-day ski pass to the Dartmouth Skiway. Their contributions to the United Way will be directed to those in need.
