

# Staying Connected with Campus Services

Thanks to everyone who joined the fun at recent Campus Services "Thank You" events. It was wonderful to see everyone together and have the opportunity to thank you again for your efforts. Employees who haven't yet received their Campus Services beach towels may pick them up at McKenzie Hall.

*Work is progressing nicely on the atrium in the Center for Engineering & Computer Science building where wood paneling is currently being installed.*

## Transition Off Internet Explorer

As of Aug. 17, Microsoft will no longer support the Internet Explorer 11 web browser for use with Microsoft 365 applications and services. These apps include Outlook, Word, Excel, etc. ITC recommends that we use more fully supported browsers such as Firefox, Chrome, Safari, and Edge. This is in anticipation that IE will naturally age out of support with relevant Windows operating systems.

These articles provide information to help with the transition:

- [Set Default Web Browser](#)
- [How to move Browser Bookmarks](#)
- [How to Access Internet Options Without IE](#)

If you have any IT issues, go to [services.dartmouth.edu](https://services.dartmouth.edu) and submit a ticket.

## Latest COVID Restrictions

This is just a reminder of Dartmouth's latest COVID-19 restrictions.

Regardless of vaccination status, face coverings are required indoors (including in a tent with walls) and when riding in a vehicle with others. Masks may be removed when you're outdoors or in a private, non-shared space. This applies to all students, faculty, staff, contractors, vendors, guests, and visitors when accessing Dartmouth's campuses in Hanover or Lebanon or any Dartmouth buildings, grounds, or facilities.

Employees who come to campus, are fully vaccinated, and have submitted their vaccine documentation must be tested once every 30 days. Faculty and staff who come to campus and are not fully vaccinated or have not submitted their vaccine documentation must continue to be tested twice weekly.

Testing is being conducted at the Courtyard Café in the Hopkins Center. Please be sure to [schedule your test](#).

## Getting to Know Transportation Services

While most of us don't think twice about commuting to campus, our Transportation Services (TS) team works diligently to make our daily commute easy. Most importantly, they provide options for Dartmouth employees and students that support what's most important to each individual.

For those interested in public transportation, TS is the liaison with and provides financial support to local transit companies, including [Advance Transit](#), the [MOOver](#), and Stagecoach [Tri-Valley Transit](#) to offer free commuter and in-town service. For those who drive to campus, TS manages parking spaces on campus by issuing permits, monitoring parking lots for compliance with parking rules, and coordinating shuttle services between Dartmouth parking lots and on-campus buildings. Others may take advantage of [rideshare options](#) or use a free shower pass if they bike, run, or walk to work.

TS partners with CS Technology Services to actively manage the on-line parking portal ([parking.dartmouth.edu](https://parking.dartmouth.edu)) where employees and students can purchase or activate a parking permit and pay or appeal parking citations. TS will continue to introduce new technology and will utilize a new parking gate system for the below-ground parking garage at the Center for Engineering & Computer Science building, when it comes on-line this winter.

In addition, Transportation Services oversees the [Approved Driver Program](#) that certifies employees and students who operate vehicles on Dartmouth business. In doing so, they ensure drivers have participated in driver safety training and review applicant motor vehicle records to check for a valid license and clean driving history, all to keep people safe. They also oversee compliance with DOT rules for those who operate commercial-type vehicles as part of their job at Dartmouth.

Erica Partington & Scotty Davis

When you can, please stop and extend thanks to the four Transportation Services employees who provide excellent customer service and information to Dartmouth constituents. TS Director Patrick

O'Neill, TS Coordinator Erica Partington, and TS Monitors Scotty Davis and Greg McEwan can be reached via email at [Transportation.Services@Dartmouth.edu](mailto:Transportation.Services@Dartmouth.edu), over the phone at (603) 646-3159, and on the lower level of the Class of '53 Commons.
