

Staying Connected with Campus Services

Getting Together

Catch up on what's going on within the Campus Services division at our next **Town Hall** meeting.

Date: March 7

Times: 2-3:30 pm and 10-11:30pm

Where: Cook Auditorium

Two meeting times are offered to accommodate our various shifts, so plan to attend the one time that works best for your schedule. And bring your appetite! Make-your-own ice cream sundaes will be available at the Town Hall to celebrate National Employee Appreciation Day which is recognized on Friday, March 3.

Congratulations!

Frank Roberts shared, "I am pleased to announce Samantha Brown will be our next Custodial Supervisor working on third shift starting Jan. 29. Sam has been working at Dartmouth approximately 18 months, was the squad leader at Baker/Berry Library for the past year, and is a Co-Chair of the Campus Services DEI Council. Prior to joining Dartmouth, she ran her own home care business. She looks forward to working with the custodial team providing support and focusing on communications. Besides taking pride in her work, Sam is proud to be a mom of two kids, Carolie (5) and Andrew (6)."

Congratulations, Sam!

Around Campus

[Sachem Village](#) may be out of sight, but it's not out of mind for Real Estate, FO&M, and Project Management Services employees who are working to renovate a number of Sachem residences.

For those not familiar with it, Sachem Village is a neighborhood comprised of 255 residences, offered exclusively to the Dartmouth community and located less than 2 miles south of downtown Hanover in Lebanon, NH. It is managed by the Real Estate Office, and is very popular amongst graduate students.

Sachem was built in phases starting in 1965. Currently underway is phase 1 of a 4-phase project to fully renovate 24 residential units in North Sachem by 2027.

According to Project Manager Drew Miraldi, renovation work started "in August with abatement/demo of 6 units on Haddock Lane. Then in Oct., we started the interior renovations... which include new kitchen and appliances; sprinkler system and addressable fire alarm; flooring, paint & finishes; and new baseboard heating and insulation. We are shooting for an early Feb. finish date."

Once again, employees across Campus Services departments are sharing their expertise to make this project a success.

In addition to Drew, thanks goes to:

- Joe Roberts (PMS): Pre-Design & Design & Procurement Phases
- Melissa Jewel: (REO) Property Manager
- Dan Justynski: (REO) Director/ Customer Svc
- Terry Impey: (REO) Operations & Maintenance
- Craig McKinney (FP): Sprinkler Design Review
- Bruce Plummer (FP): Fire Alarm Design Review & Testing
